Article 13 Special Agricultural Safeguard Measures

1. China may apply a special safeguard measure to agricultural goods specified in Table One of Annex 2, in accordance with this Article.

3. Both the FOB and CIF values referred to above shall be determined pursuant to the Customs Valuation Agreement.

1. For purposes of this Article, "simple" generally describes activities which need neither special skills nor special machines, apparatus or equipment specially produced or installed for carrying out the activity.
2. Operations or processes which contribute minimally to the essential characteristics of the goods, either by themselves or in combination, are considered to be minimal operations or processes and do not confer origin. These include:

Article 26 Packing and Containers for Transportation

Containers and packing materials used for the transport of goods shall not be taken into account in determining the origin of the goods.

Article 27 Packaging Materials and Containers for Retail Sale

Where goods are subject to a change in tariff classification criterion set out in Annex 5, the origin of the packaging materials and containers in which goods are packaged for retail sale shall be disregarded in determining the origin of the goods, provided that the packaging materials and containers are classified with the goods. However, if the goods are subject to an RVC requirement, the value of the packaging materials and containers used for retail sale shall be taken into account as originating materials or non-originating materials as the case may be when determining the origin of the goods.

Article 28 Accessories, Spare Parts and Tools

1. With regard to the change in tariff classification requirements for origin specified in Annex 5, accessories, spare parts, tools, instructional and information materials presented with the good upon importation shall be disregarded in the determination of the origin of the good, provided that these are classified with and not invoiced separately from the good.

2. Where the goods are subject to an RVC requirement, the value of the accessories, spare parts, tools, instructional and information materials shall be taken into account as originating materials or non-originating materials, as the case may be, in calculating the RVC of the goods.

3. This Article applies only where the quantities and values of said accessories, spare parts, tools, instructional and information materials are customary for the good.

Article 29 Neutral Elements

1. In determining whether a good is an originating good, the origin of any neutral elements as defined in paragraph 2 shall be disregarded.

2. Neutral elements are goods used in the production, testing or inspection of another good but not physically incorporated into the good, or goods used in the maintenance of buildings or the operation of equipment associated with the production of a good. These include:

- (e) spare parts and materials used in the maintenance of equipment and buildings;
- (f) lubricants, greases, compounding materials and other materials used in production or used to operate equipment and buildings;
- (g) any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.

Article 30 Interchangeable Materials

1. In determining whether a good is an originating good, any interchangeable materials shall be distinguished by:

- (a) physical separation of the goods; or
- (b) an inventory management method recognised in the generally accepted accounting principles of the exporting Party.

2. Interchangeable materials are goods or materials which are interchangeable for commercial purposes, whose properties are essentially identical, and between which it is impractical to differentiate by a mere visual examination.

Article 31 De Minimis

A good that does not meet tariff classification change requirements, pursuant to the provisions of Annex 5, shall nonetheless be considered to be an originating good if:

- (a) the value of all non-originating materials, including materials of undetermined origin, that do not meet the tariff classification change requirement does not exceed 10% of the FOB value of the given good, determined pursuant to Article 22; and
- (b) the good meets all the other applicable criteria of this Section.

Article 35 Refund of Import Duties or Deposits

1. Where a Certificate of Origin or a Declaration of Origin, as the case may be, is not provided at the time of importation of a good from a Party pursuant to Article 34, the importing Party may impose the applied non-preferential import customs duty or require payment of a deposit on that good, where applicable. In such a case the importer may apply for a refund of any excess import customs

- (a) a written declaration that the good presented qualifies as an originating good was provided to the customs administration of the importing Party at the time of importation; and

4. In the event of theft, loss or damage of a Certificate of Origin, the exporter or manufacturer may make a written request to the authorized bodies of the exporting Party for issuing a certified copy, provided that the exporter or manufacturer makes sure that the original copy previously issued has not been used. The certified copy shall bear the words "CERTIFIED TRUE COPY of the original Certificate of Origin number ____ dated ____". If the importing customs administration ascertains that the original copy has been used, the certified copy shall be invalid and vice versa.

5. The format and any requirements set out in Annex 6 may be revised or modified by joint decision through an exchange of letters between the Parties.

Article 37 Declaration of Origin

1. A Declaration of Origin shall be in the format as set out in Annex 7, and shall be accepted in place of a Certificate of Origin:
 - (a) for any consignment whose aggregate customs value does not exceed US\$1,000 or its equivalent in the currency of the importing Party, or such higher amount as that Party may establish;
 - (b) for any consignment of goods covered by an advance ruling in accordance with Article 52 that deems the good to qualify as originating, so long as the facts and circumstances on which the ruling was based remain unchanged and the ruling remains legally valid; or
 - (c) when the importing Party otherwise decides, for any reason, that a Certificate of Origin is not required in relation to a specific consignment or in general.
2. Notwithstanding paragraph 1, where an importation forms part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purposes of circumventing the requirements of this Section, the importing Party may deny preferential tariff treatment.
3. A Declaration of Origin shall cover the goods presented under a single import customs declaration, and shall remain valid for 12 months from the date of issue.
4. The format and any requirements set out in Annex 7 may be revised or modified by joint decision through an exchange of letters between the Parties.

Article 38 Amendments to Origin Documents

1. Neither erasures nor superimpositions shall be permitted on any origin documents. Any amendment shall be made by striking out the erroneous information and making any addition which might be required. Such alterations shall be endorsed by the person who made them.
2. Any unused space shall be crossed out to prevent any addition subsequent to certification.

Article 39 Retention of Origin Documents

1. Each Party shall require its producers, exporters and importers to retain origin documents for a period specified in its domestic legislation.

2. Each Party shall ensure that its authorized bodies retain copies of Certificates of Origin and other documentary evidence of origin for a period specified in its domestic legislation.

Article 40 Authorized Bodies

1. A Certificate of Origin shall be issued only by an authorized body in the exporting Party.

2. Each Party shall inform the customs administration of the other Party of the name of each authorized body, as well as relevant contact details, and shall provide details of any security features for relevant forms and documents used by each authorized body, prior to the issuance of any certificates by that body. Any change in the information provided above shall be advised promptly to the customs administration of the other Party.

Article 41 Verification of Origin

1. For the purposes of determining whether goods imported into the territory of a Party from the territory of the other Party qualify as originating goods, the importing customs administration may verify any claims for tariff preference by means of:

- (a) written requests for additional information from the importer;

2. A verification process under paragraph 1 shall only be initiated when there are reasonable grounds to doubt the accuracy or authenticity of origin documents, the origin status of the goods concerned or the fulfilment of any other requirements under this Section, and when customs duty is sufficiently material to warrant the request.

3. A verification request to the competent authority of the exporting Party shall specify the reasons, and any documents and information obtained justifying the verification activities shall be forwarded to the competent authority of the requested Party.

4. The Parties shall develop an electronic verification system to ensure the effective and efficient implementation of this Section in a manner and within a timeframe to be jointly determined by the Parties.

Article 42 Denial of Preferential Tariff Treatment

1. A Party may deny preferential tariff treatment to a good when:
 - (a) the name of the relevant authorized body or any security features for relevant forms and documents used by that authorized body, or any change in the above information, has not been advised to the customs administration of the other Party;
 - (b) the importer, exporter, manufacturer or producer, as appropriate, fails to provide information which the Party has requested in the course of a verification process under Article 41, or the requested competent authority is unable for any reason to respond to the request to the satisfaction of the importing customs administration, within 6 months of the date of request; or
 - (c) the good does not or did not comply with the other requirements of this Chapter, including where:
 - (i) the Certificate of Origin has not been duly completed and signed;
 - (ii) the origin of the goods is not in conformity with Section 1;
 - (iii) the data provided under the Certificate of Origin does not correspond to those of the supporting documents submitted; or
 - (iv) the description, quantity and weight of goods, marks and number of packages, number and kinds of packages, as specified, do not conform to the goods imported.

provisional safeguard measure means a provisional safeguard measure described in Article 70;

safeguard measure means a safeguard measure described in Article 67.2;

serious injury means a significant overall impairment in the position of a domestic industry;

threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture or remote possibility, is clearly imminent;

Article 67 Application of a Bilateral Safeguard Measure

1. If, as a result of the reduction or elimination of a customs duty provided for in this Agreement, a product benefiting from preferential tariff treatment under this Agreement is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic production and under such conditions as to cause serious injury or threat thereof to a domestic industry producing a like or directly competitive product, the importing Party may apply a safeguard measure described in paragraph 2, during the transition period.

2. If the conditions in paragraph 1 are met, a Party may, only to the extent as may be necessary to prevent or remedy serious injury, or threat thereof, and to facilitate adjustment:

- (a) suspend the further reduction of any rate of customs duty on the product provided for under this Agreement; or

- (b) increase the rate of customs duty on the product to a level not exceeding the lesser of:
 - (i) the MFN applied rate of duty in effect on the product on the day immediately preceding the date of entry into force of this Agreement; or
 - (ii) the MFN applied rate of customs duty in effect on the product on the date on which the safeguard measure is applied.

Article 68 Standards for a Bilateral Safeguard Measure

1. A Party may apply a safeguard measure for an initial period of no longer than 2 years. The period of a safeguard measure may be extended for a period not exceeding 1 year provided that the competent authorities of the importing Party have determined, in accordance with the procedures set out in Article 69, that the continued application of the measure is necessary to prevent or remedy serious injury and that the industry is adjusting. Regardless of its duration, a safeguard measure shall terminate at the end of the transition period. No new safeguard measure may be applied to a product after that date.

2. A Party shall not apply a safeguard measure or provisional safeguard measure again on a product which has been subject to such a measure for a period of time equal to that during which such a measure had been previously applied, provided that the period of non-application is at least 2 years.

3. Neither Party may apply a safeguard measure on a product that is subject to a measure that the Party has applied pursuant to Article XIX of GATT 1994 and the Safeguards Agreement, and neither Party may continue maintaining a safeguard measure on a product that becomes subject to a measure that the Party applies pursuant to Article XIX of GATT 1994 and the Safeguards Agreement.

4. On the termination of a safeguard measure, the rate of duty shall be the customs duty set out in the Party's Schedule to Annex 1 as if the safeguard measure had never been applied.

Article 69 Investigation Procedures and Transparency Requirements

1. The importing Party may apply a safeguard measure under this Section only following an investigation by its competent authorities in accordance with Article 3 of the Safeguards Agreement; and to this end, Article 3 of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.

2. In determining whether increased imports of an originating product of the other Party have caused serious injury or are threatening to cause serious injury to a domestic industry, the competent authority of the importing Party shall follow the rules in Article 4.2 of the Safeguards Agreement; and to this end, Article 4.2 of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.

Article 70 Provisional Safeguard Measures

In critical circumstances where delay would cause damage which it would be difficult to repair, a Party may take a provisional safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports have caused or are threatening to cause serious injury. The duration of the provisional safeguard measure shall not exceed 200 days, during which period the pertinent requirements of Articles 67, 68 and 69 shall be met. Such a provisional safeguard measure shall take the form of an increase in the rate of customs duty not exceeding the lesser of the rates in Article 67.2(b), which shall be promptly refunded if the subsequent investigation does not determine that increased imports have caused or threatened to cause serious injury to a domestic industry. The duration of any such provisional safeguard measure shall be counted as a part of the initial period and any extension of a safeguard measure.

Article 71 Notification

1. A Party shall promptly notify the other Party, in writing, on:
 - (a) initiating an investigation;
 - (b) taking a provisional safeguard measure;
 - (c) making a finding of serious injury or threat thereof caused by increased imports; and
 - (d) taking a decision to apply or extend a safeguard measure.
2. In making the notification referred to in paragraph 1(d), the Party applying a safeguard measure shall provide the other Party with all pertinent information, such as a precise description of the product involved, the proposed safeguard measure, the grounds for introducing such a safeguard measure, the proposed date of introduction and its expected duration. In the case of an extension of a safeguard measure, the written results of the determination required by Article 68.1, including evidence that the continued application of the measure is necessary to prevent or remedy serious injury and that the industry is adjusting, shall also be provided.

3. A Party proposing to apply or extend a safeguard measure shall provide adequate opportunity for prior consultations with the other Party, with a view to, *inter alia*, reviewing the information provided under paragraph 2, exchanging views on the safeguard measure and reaching an agreement on compensation as set forth in Article 72.1.

4. Where a Party takes a provisional safeguard measure referred to in Article 70, on request of the other Party, consultations shall be initiated immediately after taking such a provisional safeguard measure.

Article 72 Compensation

1. A Party applying a safeguard measure shall, in consultation with the other Party, provide to the other Party mutually agreed trade liberalising compensation in the form of substantially equivalent concessions during the period of application of the safeguard measure.

2. If the Parties are unable to reach agreement on compensation within 45 days after the application of the safeguard measure, the exporting Party shall be free to suspend the application of substantially equivalent concessions to the trade of the Party applying the safeguard measure. The right of suspension referred to in this paragraph shall not be exercised for the first year that a safeguard measure is in effect under the condition that the safeguard measure has been taken as a result of an absolute increase in imports and that such a measure conforms to the provisions of this Chapter.

3. A Party shall notify the other Party in writing at least 30 days before suspending concessions under paragraph 2.

4. The obligation to provide compensation under paragraph 1 and the right to suspend substantially equivalent concessions under paragraph 2 shall terminate on the date of the termination of the safeguard measure.

2. The Joint Management Committee shall establish for each Party a priority order for consideration of market access requests of the other Party including the undertaking of risk analyses. These priorities shall be recorded in *Implementing Arrangement: Chapter 7 B(1)*.
3. The Parties shall endeavour to expedite market access requests from each other and in particular any risk analysis process associated with such requests. The Parties shall jointly determine principles and guidelines for establishing and managing timelines for completion of risk analyses. Such principles and guidelines shall be included in *Implementing Arrangement: Chapter 7 B(2)* and applied accordingly.

4. To facilitate the consideration of market access requests and risk analyses:

2. The Parties shall jointly develop principles, criteria and processes regarding adaptation to regional conditions and record these in *Implementing Arrangement: Chapter 7 C(1)*. Recognition of the status shall be in accordance with the principles, criteria and processes recorded in this Implementing Arrangement.

3. The Parties, through the Joint Management Committee, shall decide on the status as described in paragraph 1 and the measures to be taken to maintain this status and may also decide in advance the risk management measures that will apply to trade between the Parties in the event of a change in the status. 7. Equivalence decisions recorded in *Implementing Arrangement: Chapter 7 D(2)* shall be applied to trade between the Parties.
8. The consideration by a Party of a request from the other Party for recognition of the equivalence of its measures with regard to a specific product shall not be in itself a reason to disrupt or suspend ongoing imports from that Party of the product in question.

Article 82 Verification

1. In order to maintain confidence in the effective implementation of this Chapter, each Party shall have the right to carry out audit and verification

procedures of the exporting Party, which may include an assessment of all or part of the competent authorities' total control programme, including, where appropriate:

The Parties may jointly determine principles or guidelines for certification. Any such principles shall be included in *Implementing Arrangement: Chapter 7 F*.

Article 84 Import Checks

1. The import checks applied to imported animals, animal products, plants and plant products or other related goods traded between the Parties shall be based on the risk associated with such importations. They shall be carried out in a manner that is least trade-restrictive and without undue delay.

2. The frequencies of import checks on such importations shall be made available on request. The importing Party shall notify the other Party in a timely manner of any amendment to the frequency of import checks in the event of

change in the import risk. On request, an explanation regarding amendments shall be given or consultations shall be undertaken.

3. The Parties may record frequencies of import checks in *Implementing Arrangement: Chapter 7 G* and in that case they shall be applied accordingly. The Joint Management Committee may amend the frequencies of those import checks as a result of experience gained through import checks or otherwise, or as a result of actions or consultations provided for in this Chapter.

4. In the event that the import checks reveal non-conformity with the relevant standards and/or requirements, the action taken by the importing Party should be proportionate to the risk involved.

5. At the request of the exporting Party, the importing Party shall to the maximum extent ensure that officials of the exporting Party or their representatives are given the opportunity to contribute any relevant information to assist the importing Party in taking a final decision. If necessary, a joint testing of the preserved samples will be carried out by the Parties.

Article 85 Cooperation

1. Consistent with the objectives of this Chapter, the Parties shall explore opportunities for further cooperation in sanitary and phytosanitary matters of mutual interest.

 - (d) carry out other forms of cooperation including those in relation to activities of the enquiry points established under Annex B of the SPS Agreement.
3. The Parties recognise that it is of significant importance to carry out technical assistance and capacity building so as to further strengthen bilateral sanitary and phytosanitary cooperation, and promote bilateral trade in agricultural products and food.
4. Understandings on technical assistance and cooperation projects reached by the Joint Management Committee will be recorded in *Implementing Arrangement: Chapter 7 H* and applied accordingly.

Article 86 Notification

1. The Parties shall inform each other through the contact points in a timely and appropriate manner when:
- (a) there is a significant change in health status, including the distribution and host preference of diseases or pests in *Implementing Arrangement: Chapter 7 C(2)*, to ensure continued confidence in the competence of the Party with respect to the management of any risks of transmission of disease or pest to the other Party which may arise as a consequence;
 - (b) there are scientific findings of importance with respect to diseases or pests which are not in *Implementing Arrangement: Chapter 7 C(2)*, or new diseases or pests;

2. In cases of serious and immediate concern with respect to human, animal or plant life or health, oral notification shall be made with urgency to the contact points and written confirmation should follow within 24 hours.
3. Where a Party has serious concerns regarding a risk to human, animal or plant life or health, consultations regarding the situation shall, on request, take place as soon as possible, and in any case within 14 days unless otherwise agreed between the Parties. Each Party shall endeavour in such situations to

provide all the information necessary to avoid a disruption in trade, and to reach a mutually acceptable solution.

4. Where there is a non-compliance of imported consignments for products subject to sanitary or phytosanitary measures, the importing Party shall notify as soon as possible the exporting Party of the non-compliance.

5. Without prejudice to the preceding paragraphs of this Article and in particular paragraph 3, a Party may, on serious human, animal or plant life or health grounds, take provisional measures necessary for the protection of human, animal or plant life or health. These measures shall be notified in writing within 24 hours to the other Party and, on request, consultations regarding the situation shall be held within 8 days unless otherwise agreed by the Parties. The Parties shall take due account of any information provided through such consultations.

Article 87 Exchange of Information

The Parties, through the contact points, shall exchange information relevant to the implementation of this Chapter on a uniform and systematic basis, to provide assurance, engender mutual confidence and demonstrate the efficacy of the programmes controlled. Where appropriate, achievement of these objectives may be enhanced by exchanges of officials.

2. The information exchange on changes in the respective sanitary and phytosanitary measures, and other relevant information, shall include:

- (a) opportunity to consider proposals for changes in regulatory standards or requirements which may affect this Chapter in advance of their finalisation. Where either Party considers it necessary, proposals may be dealt with in accordance with Article 88;

Article 90 Objectives

1. The objectives of this Chapter are to:

Article 93 Application

This Chapter applies to all goods that are manufactured or assembled in the territory of one or both Parties and are consigned directly between the Parties.

Article 94 International Standards

1. The Parties shall use international standards, or the relevant parts of international standards, as a basis for their technical regulations and related conformity assessment procedures where relevant international standards exist or their completion is imminent, except when such international standards or their relevant parts are ineffective or inappropriate to fulfil legitimate regulatory objectives.

2. The Parties shall cooperate with each other, where appropriate, in the context of their participation in international standardising bodies, to ensure that international standards developed within such organizations, that are likely to become a basis for technical regulations, are trade facilitating and do not create unnecessary obstacles to international trade.

3. The Parties shall strengthen communications and coordination with each other, where appropriate, in the context of discussions on international standards and related issues in other international forums, such as the WTO Committee on Technical Barriers to Trade ("WTO TBT Committee").

Article 95 Equivalence of Technical Regulations

1. Consistent with the TBT Agreement, each Party shall give positive consideration to accepting as equivalent, technical regulations of the other Party, even if these regulations differ from its own, provided that those technical regulations produce outcomes that are equivalent to those produced by its own technical regulations in meeting its legitimate objectives and achieving the same level of protection.

2. A Party shall, upon the request of the other Party, explain the reasons why it has not accepted a technical regulation of the other Party as equivalent.

3. The Parties shall strengthen communications and coordination with each other, where appropriate, in the context of discussions on the equivalence of technical regulations and related issues in international forums, such as the WTO TBT Committee.

Article 96 Regulatory Cooperation

Any agreements or arrangements on mutual recognition of conformity assessment concluded between the Parties under this Agreement shall be included in Annexes and Implementing Arrangements to this Chapter pursuant to Article 102.

3. The Parties may consult on such matters as the technical competence of the conformity assessment bodies involved, as appropriate to enhance confidence in the continued reliability of each other's conformity assessment results, before accepting results of a conformity assessment procedure.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to the like service or service suppliers of the other Party.

3. Schedules of Specific Commitments are annexed to this Agreement as Annex 8.⁵

⁴ Subparagraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

⁵ The specific commitments in respect of the presence of natural persons mode are set out in Annex 10.

Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.
 - (b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
3. Where authorization is required for the supply of a service on which a specific commitment under this Agreement has been made, the competent authorities of each Party shall:
 - (a) in the case of an incomplete application, at the request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
 - (b) at the request of the applicant, provide without undue delay information concerning the status of the application; and
 - (c) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing and without delay the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.
4. With the objective of ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties shall

jointly review the results of the negotiations on disciplines on these measures pursuant to Article VI.4 of GATS, with a view to their incorporation into this Agreement. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service;
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
5.  - (ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.
- (b) In determining whether a Party is in conformity with the obligation under paragraph 5(a), account shall be taken of international standards of relevant international organizations applied by that Party.⁶

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

between the Parties or their relevant competent bodies, or may be accorded autonomously.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted in the territory of a non-Party, nothing in Article 107 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 2, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licences or certifications obtained or requirements met in that other Party's territory should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorisation, licensing, or certification of service suppliers, or a disguised restriction on trade in services.

Article 113 Qualifications Recognition Cooperation

1. Both Parties acknowledge existing work on qualifications recognition taking place under the auspices of the New Zealand – China Education Joint Working Group ("JWG") and encourage the JWG to further explore cooperation in mutual recognition of respective academic degrees and qualifications.

Article 120 Modification of Schedules

1. A Party (referred to in this article as the "modifying Party") may modify or withdraw any commitment in its Schedule of Specific Commitments, at any time after 3 years have elapsed from the date on which that commitment entered into force provided that:
 - (a) it notifies the other Party (referred to in this article as the "affected Party") of its intention to modify or withdraw a commitment no later than 3 months before the intended date of implementation of the modification or withdrawal; and
 - (b) upon notification of a Party's intent to make such modification, the Parties shall consult and attempt to reach agreement on the appropriate compensatory adjustment.
2. In achieving a compensatory adjustment, the Parties shall endeavour to maintain a general level of mutually advantageous commitment that is not less favourable to trade than provided for in the Schedules of Specific Commitments prior to such negotiations.
3. If agreement under paragraph 1(b) is not reached between the modifying Party and the affected Party within 3 months, the affected Party may refer the

matter to arbitration in accordance with the procedures set out in Chapter 16 (Dispute Settlement).

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under its specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that

Party may request the other Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.

Article 139 Most-favoured-nation Treatment

1. Each Party shall accord to investors, investments and activities associated with such investments by investors of the other Party treatment no less favourable than that accorded, in like circumstances, to the investments and associated activities by the investors of any third country with respect to admission, expansion, management, conduct, operation, maintenance, use, enjoyment and disposal.

2. The Parties will endeavour to progressively remove the non-conforming measures.
3. Notwithstanding anything in paragraph 1, Article 138 shall not apply to any measure, which with respect to each Party, would not be within the scope of the national treatment obligations in any of that Party's existing bilateral investment treaties.

- (d) transfer formalities relating to an investment shall in no case be made more restrictive than formalities required at the time when the original investment was made; and

2. The compensation referred to above shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation measures were taken. The fair market value shall not reflect any change in value due to the expropriation becoming publicly known earlier. The compensation shall include interest at the prevailing commercial rate from the date the expropriation was done until the date of payment. It shall be paid without delay and shall be effectively realizable and freely transferable. It shall be paid in the currency of the country of the affected investor, or in any freely convertible currency accepted by the affected investor.

3. If the fair market value is denominated in a freely usable currency, the compensation paid shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation until the date of payment.

There shall be no *ex parte* communications with the arbitral tribunal concerning matters under its consideration.

5. The arbitral tribunal shall have the right to seek information and technical advice from any individual or body which it deems appropriate. The arbitral tribunal shall provide the Parties with a copy of the information or technical advice received and an opportunity to provide comments. Where the arbitral tribunal takes the information or technical advice into account in the preparation of its report, it shall also take into account any comments by the Parties on the information or technical advice.

6. Unless the Parties otherwise agree within 20 days from the date of the establishment of the arbitral tribunal, the terms of reference shall be:

"To examine, in the light of the relevant provisions of this Agreement, the matter referred to in the request for the establishment of an arbitral tribunal pursuant to Article 188 and to make findings of law and fact together with the reasons therefor for the resolution of the dispute."

7. The arbitral tribunal shall take its decisions by consensus; provided that where an arbitral tribunal is unable to reach consensus, it may take its decisions by majority vote. Any opinions expressed in the tribunal report by individual arbitrators shall be anonymous.

8. The arbitral tribunal shall, apart from the matters set out in this Article, regulate its own procedures in relation to the rights of the Parties to be heard and its deliberations, in consultation with the Parties.

Article 192 Expenses

Unless the Parties determine otherwise because of the particular circumstances of the case, the expenses of the tribunal, including the remuneration of its members, shall be borne by the Parties in equal shares.

Article 193 Suspension or Termination of Proceedings

1. The Parties may agree that the arbitral tribunal suspend its work at any time for a period not exceeding 12 months from the date of such agreement. If the work of the arbitral tribunal has been suspended for more than 12 months, the authority for establishment of the tribunal shall lapse, unless the Parties agree otherwise.

2. The Parties may agree to terminate the proceedings of an arbitral tribunal in the event that a mutually satisfactory solution to the dispute has been found. In such event the Parties shall jointly notify the chair of the arbitral tribunal.

Article 194 Report of Arbitral Tribunal

1. The report of the arbitral tribunal shall be drafted without the presence of the Parties in the light of the information provided and the statements made to the arbitral tribunal.

2. In order to enable the Parties to have an opportunity for review and comment, the arbitral tribunal shall present the Parties its initial report within 90

days of the tribunal's formation setting out its findings of facts and its determination as to whether a disputing Party has conformed with its obligations under this Agreement. In exceptional cases, if the arbitral tribunal considers it cannot release its initial report within 90 days, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will issue its report. Any delay shall not exceed a further period of 30 days, unless the Parties otherwise agree.

3. A Party may submit written comments to the arbitral tribunal within 10 days of receiving the initial report. After considering these written comments by the Parties and making any further examination it considers appropriate, the arbitral tribunal shall present the Parties its final report within 30 days of presentation of the initial report, unless the Parties otherwise agree. The final report of the arbitral tribunal shall be made available as a public document after the lapse of 10 days from the date of its release.

4. The arbitral report is final.

Article 195 Implementation of Arbitral Report

1. The Party concerned shall comply with the findings of the tribunal. If it is not practicable to comply immediately, the Party concerned shall implement the findings contained in the report of the arbitral tribunal within a reasonable period of time.

2. Where the tribunal makes a finding that a measure is inconsistent with this Agreement, the Party concerned shall have the obligation to eliminate the non-conformity.

Article 196 Reasonable Period of Time

1. The reasonable period of time shall be mutually determined by the Parties, or where the Parties fail to agree on the reasonable period of time within 45 days of the release of the arbitral tribunal's report, either Party may refer the matter to the original arbitral tribunal (to the extent this is possible), which shall determine the reasonable period of time following consultation with the Parties.

2. The arbitral tribunal shall provide its report to the Parties within 60 days after the date of the referral of the matter to it. When the arbitral tribunal considers that it cannot provide its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of 30 days, unless the Parties otherwise agree.

Article 197 Compliance Review

1. Where there is disagreement as to the existence or consistency with this Agreement of measures taken within the reasonable period of time to comply with the findings of the arbitral tribunal, such dispute shall be referred to an arbitral tribunal proceeding under this Chapter, including wherever possible by resort to the original arbitral tribunal.

2. The arbitral tribunal shall provide its report to the Parties within 60 days after the date of the referral of the matter to it. When the arbitral tribunal considers that it cannot provide its report within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will submit its report. Any delay shall not exceed a further period of 30 days unless the Parties otherwise agree.

Article 198 Compensation and Suspension of Concessions and Obligations

1. If the Party concerned fails to bring the measure found to be inconsistent with this Agreement into compliance with the findings of the arbitral tribunal within the reasonable period of time or if the Party complained against expresses in writing that it will not implement the findings, that Party shall, if so requested, enter into negotiations with the complaining Party with a view to reaching a mutually satisfactory agreement on any necessary compensation.

2. If the Parties do not reach agreement on compensation as set forth by paragraph 1 within 30 days, the complaining Party may suspend the application of concessions and obligations of equivalent effect to the responding Party, with 30 days' notice in writing after the end of the reasonable period of time established in accordance with Article 196. Concessions and obligations may not be suspended while the complaining Party is pursuing negotiations under paragraph 1.

3. Any suspension of concessions and obligations shall be restricted to benefits accruing to the other Party under this Agreement.

4. In considering what concessions and obligations to suspend pursuant to paragraph 2:

- (a) the complaining Party should first seek to suspend concessions and obligations in the same sector(s) as that affected by the measure that the arbitral tribunal has found to be inconsistent with the obligations of this Agreement; and
- (b) if the complaining Party considers that it is not practicable or effective to suspend concessions and obligations in the same sector(s), it may suspend concessions and obligations in other

sectors. The communication in which it announces such a decision shall indicate the reasons on which it is based.

5. The suspension of benefits shall be temporary and shall only be applied until such time as the measure found to be inconsistent with this Agreement has been removed, or the Party that must implement the arbitral tribunal's findings has done so, or a mutually satisfactory solution is reached.

6. Upon written request of the Party concerned, the original arbitral tribunal shall determine whether the level of concessions and obligations to be suspended by the complaining Party pursuant to paragraph 2 is excessive. If the arbitral tribunal cannot be established with its original members, the proceeding set out in Article 189 shall be applied.

7. The arbitral tribunal shall present its determination within 60 days from the request made pursuant to paragraph 6, or if an arbitral tribunal cannot be established with its original members, from the date on which the last arbitrator is selected. The decision of the arbitral tribunal shall be final and binding. It shall be delivered to the Parties and be made publicly available.

Article 199 Post Suspension

1. Without prejudice to the procedures in Article 198, if the responding Party considers that it has eliminated the non-conformity that the arbitral tribunal has found, it may provide written notice to the complaining Party with a description of how non-conformity has been removed. If the complaining Party disagrees, it may refer the matter to the original arbitral tribunal within 60 days after receipt of such written notice. Otherwise, the complaining Party shall promptly stop the suspension of concessions and obligations.

2. The arbitral tribunal shall release its report within 60 days after the referral of the matter. If the arbitral tribunal concludes that the responding Party has eliminated the non-conformity, the complaining Party shall promptly stop the suspension of concessions and obligations.

Article 200 General Exceptions

1. For the purposes of this Agreement, Article XX of GATT 1994 and its interpretative notes and Article XIV of GATS (including its footnotes) are incorporated into and made part of this Agreement, *mutatis mutandis*.

The Parties understand that the measures referred to in Article XX(b) of GATT 1994 and Article XIV(b) of GATS, as incorporated into this Agreement, can include environmental measures necessary to protect human, animal or plant life or health, and Article XX(g) of GATT 1994, as incorporated into this Agreement, applies to measures relating to the conservation of living and non-living exhaustible natural resources, subject to the requirement that they are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in goods or services or investment.

3. For the purposes of this Agreement, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on trade in goods or services or investment, nothing in this Agreement shall be construed to prevent the adoption or enforcement by a Party of measures necessary to protect national works or specific sites of historical or archaeological value, or to support creative arts of national value.¹³

4. Nothing in this Agreement shall prevent the Parties from taking any necessary measures to restrict the illicit import of cultural property from the other Party under the framework of the United Nations Educational, Scientific and Cultural Organization (“UNESCO”) *Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property*, done at Paris on 14 November 1970.

The term encompasses those activities involved in the presentation, execution and interpretation of the arts; and the study and technical development of these art forms and activities.

- (a) to require a Party to furnish or allow access to any information the disclosure of which it determines to be contrary to its essential security interests;
- (b) to prevent a Party from taking any actions which it considers necessary for the protection of its essential security interests

 - (ii) taken in time of war or other emergency in international relations;
 - (iii) relating to fissionable and fusionable materials or the materials from which they are derived; or
- (c) to prevent a Party from taking any action in pursuance of its obligations under the *United Nations Charter* for the maintenance of international peace and security.

2. The FTA Joint Commission shall be informed to the extent possible of measures taken under subparagraphs 1(b) and 1(c) and of their termination.

Article 202 Measures to Safeguard the Balance of Payments

1. Where a Party is in serious balance of payments and external financial difficulties or under threat thereof, it may:

- (a) in the case of trade in goods, in accordance with GATT 1994 and the WTO *Understanding on Balance-of-Payments Provisions of the General Agreement on Tariffs and Trade 1994*, adopt restrictive import measures;
- (b) in the case of services, in accordance with GATS, adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments;
- (c) in the case of investments, adopt or maintain restrictions with regard to the transfer of funds related to investment, including those on capital account.

2. Restrictions adopted or maintained under subparagraph 1(b) or 1(c) shall:

- (c) not exceed those necessary to deal with the circumstances described in paragraph 1;
- (d) be temporary and be phased out progressively as the situation specified in paragraph 1 improves; and
- (e) be applied on an equitable, non-discriminatory and good faith basis and such that the other Party is treated no less favourably than any non-Party.

3. In determining the incidence of such restrictions, the Parties may give priority to economic sectors which are more essential to their economic development. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular sector.

4. Any restrictions adopted or maintained by a Party under paragraph 1, or any changes therein, shall be notified to the other Party within 30 days from the date such measures are taken.

5. The Party adopting or maintaining any restrictions under paragraph 1 shall commence consultations with the other Party within 45 days from the date of notification in order to review the measures adopted or maintained by it.

Article 203 Prudential Measures

Notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Agreement, they shall not be used as a means of avoiding the Party's commitments or obligations under this Agreement.

Article 204 Taxation Measures

- (b) under Article 145.

3. Nothing in this Agreement shall affect the rights and obligations of the Parties under any tax convention relating to the avoidance of double taxation in force between the Parties.

4. If there is a dispute described in Article 152 that may relate to a taxation measure, then the Parties, including representatives of their tax administrations, shall hold consultations. Any tribunal established under Article 153 shall accept a decision of the Parties as to whether the measure in question is a taxation measure.

5. In the event of any inconsistency relating to a taxation measure between this Agreement and the *Agreement between the Government of New Zealand and the Government of the People's Republic of China for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income*, done at Wellington on 16 September 1986, with Protocols, the latter shall prevail. Any consultations between the Parties about whether an inconsistency relates to a taxation measure shall include representatives of the tax administration of each Party.¹⁴

Article 205 Treaty of Waitangi

1. Provided that such measures are not used as a means of arbitrary or unjustified discrimination against persons of the other Party or as a disguised restriction on trade in goods and services, nothing in this Agreement shall preclude the adoption by New Zealand of measures it deems necessary to accord more favourable treatment to Maori in respect of matters covered by this Agreement including in fulfilment of its obligations under the Treaty of Waitangi.

2. The Parties agree that the interpretation of the Treaty of Waitangi, including as to the nature of the rights and obligations arising under it, shall not be subject to the dispute settlement provisions of this Agreement. Chapter 16 (Dispute Settlement) shall otherwise apply to this Article. An arbitral tribunal established under Article 188 may be requested by China to determine only

¹⁴ Nothing in this Agreement shall be regarded as obliging a Party to extend to the other Party the benefit of any treatment, preference or privilege arising from any existing or future agreement on the avoidance of double taxation or from the provisions on the avoidance of double taxation in any other international agreement or arrangement by which the Party is bound.

ANNEX 3: Mid-Term Review Mechanism

1. Following the application of the scheduled tariff reduction in 2013 of this Agreement and before the scheduled tariff reduction in 2014, the Committee on Trade in Goods shall conduct a review pursuant to Article 14 to determine whether increased imports as a result of the tariff reductions implemented under this Agreement to that point have caused an overall negative impact on the Chinese dairy industry.
2. The following factors should be considered in the review:
 - (a) Changes to the volume and growth rate of imports of the specified products from New Zealand in 2008 to 2012. This import data shall be sourced from China Customs' import statistics and can be cross-referenced against New Zealand export statistics sourced from Statistics New Zealand.
 - (b) China's domestic dairy production in 2008 to 2012. This data shall be sourced from the National Bureau of Statistics of China.
 - (c) Dairy consumption in China in 2008 to 2012. Consumption shall be calculated as equal to total production plus total imports less total exports. Import and export data shall be sourced from China Customs' statistics and can be cross-referenced against statistics sourced from the relevant importing and exporting countries.
 - (d) New Zealand's market share in 2012, expressed as New Zealand imports as a percentage of total dairy consumption and as a percentage of total dairy production in China in that year.

Chapter 27		Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes	
			Chapter Notes: For the purposes of headings 2707 and 2710, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds; or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for the purposes of this definition: (a) dissolving in water or other solvents; (b) the elimination of solvents including

			solvent water; or (c) the addition or elimination of water or crystallisation. For the purposes of heading 2710, the following processes confer origin: (a) Atmospheric distillation - A separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapour then condensed into different liquefied fractions. Liquefied petroleum gas, naphtha, gasoline, kerosene, diesel/heating oil, light gas oils, and lubricating oil are produced from petroleum distillation. (b) Vacuum distillation - Distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is useful for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries, gas oils may be further processed into lubricating oils. Vacuum distillation must occur at 550 degrees centigrade minimum temperature and the process must distil at least 70 percent by volume.

			<p><u>Chapter Notes:</u></p> <p>1. Chemical Reaction Origin Rule Any good of Chapters 28 through 38, except a good of heading 3823, that is the product of a chemical reaction shall be considered to be an originating good if the chemical reaction occurred in the territory of the Parties. Unless specified in the line-by-line rules, the "chemical reaction" rule may be applied to any good classified in the above chapters. Note: For the purposes of this section, a "chemical reaction" is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of the molecule. The following are not considered to be chemical reactions for the purposes of determining whether a product is an originating good:</p> <ul style="list-style-type: none"> (a) dissolving in water or other solvents; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization.

			<p>2. Purification Origin Rule. For the purposes of Chapters 28 through 35 and Chapter 38, purification is considered to be origin conferring provided that one of the following criteria is satisfied:</p> <p>a) purification of a good resulting in the elimination of 80 percent of the content of existing impurities; or</p> <p>b) the reduction or elimination of impurities resulting in a good suitable for one or more of the following applications:</p> <p>(i) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;</p> <p>(ii) chemical products and reagents for analytical, diagnostic or laboratory uses;</p> <p>(iii) elements and components for use in micro-elements;</p> <p>(iv) specialised optical uses;</p> <p>(v) non toxic uses for health and safety;</p> <p>(vi) biotechnical use;</p> <p>(vii) carriers used in a separation process; or</p> <p>(viii) nuclear grade uses.</p>
			<p>3. Mixtures and Blends Origin Rule</p> <p>For the purposes of Chapters 30 and 31, heading 3302, subheading 3502.20, headings 3506 through 3507 and heading 3707, the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications which results in the production of a good having physical or chemical characteristics which are relevant to the purposes or uses of the good and are different from the input materials is considered to be origin conferring.</p>

			<p>4. Change in Particle Size Origin Rule For the purposes of Chapters 30 and 31:</p> <p>a) the deliberate and controlled reduction in particle size of a good, other than by merely crushing (or pressing) resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials is considered to be origin conferring; or</p> <p>b) the deliberate and controlled modification in particle size of a good, other than by merely pressing, resulting in a good having a defined particle size, defined particle size distribution or defined surface area, which are relevant to the purposes of the resulting good and have different physical or chemical characteristics from the input materials is considered to be origin conferring.</p>
			<p>5. Standards Materials Origin Rule For the purposes of Chapters 28 through 32, Chapter 35 and Chapter 38, the production of standards materials is considered to be origin conferring. For the purposes of this rule "standards materials" (including standard solutions) are preparations suitable for analytical, calibrating or referencing uses having precise degrees of purity or proportions which are certified by the manufacturer.</p>
			<p>6. Isomer Separation Origin Rule For the purposes of Chapters 28 through 32 and Chapter 35, the isolation or separation of isomers from mixtures of isomers is to be considered origin conferring.</p>

			7. Separation prohibition A non-originating material/component will not be deemed to have satisfied all applicable requirements of these rules by reason of a change from one classification to another merely as the result of the separation of one or more individual materials or components from a man-made mixture unless the isolated material/component, itself, also underwent a chemical reaction.

The following are not considered to be chemical reactions for the purposes of determining whether a product is an originating good:</p> <p>(a) dissolving in water or other solvents; (b) the elimination of solvents including solvent water; or (c) the addition or elimination of water of crystallization.</p>

Reference Paper

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that:

- (a) are exclusively or predominantly provided by a single or limited number of suppliers; and
- (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time; or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and

- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

Note by the Chairman

Revision

It has been suggested by a number of delegations that it might be helpful to produce a brief and simple note on assumptions applicable to the scheduling of commitments in basic telecoms. The purpose of the attached note is to assist delegations in ensuring the transparency of their commitments and to promote a better understanding of the meaning of commitments. This note is not intended to have or acquire any binding legal status.

NOTES FOR SCHEDULING BASIC TELECOM SERVICES COMMITMENTS

1. Unless otherwise noted in the sector column, any basic telecom service listed in the sector column:

- (a) encompasses local, long distance and international services for public and non-public use;
- (b) may be provided on a facilities-basis or by resale; and
- (c) may be provided through any means of technology (e.g., cable⁹, wireless, satellites).

2. Subsector (g) --private leased circuit services -- involves the ability of service suppliers to sell or lease any type of network capacity for the supply of services listed in any other basic telecom service subsector unless otherwise noted in the sector column. This would include capacity via cable, satellite and wireless network.

3. In view of points 1 and 2 above, it should not be necessary to list cellular or mobile services as a separate subsector. However, a number of Members have done so, and a number of offers have commitments only in these subsectors. Therefore, in order to avoid extensive changes in schedules, it would seem appropriate for Members to maintain separate entries for these subsectors.

⁹Including all types of cable.

CHAIRMAN'S NOTE

Market Access Limitations on Spectrum Availability

Many Members have entries in the market access column of their schedules indicating that commitments are "subject to availability of spectrum/frequency" or similar wording. In light of the physical nature of spectrum and the constraints inherent in its use, it is understandable that Members may have sought to rely on these words to adequately protect legitimate spectrum management policies. There is, however, doubt that words such as "subject to availability of spectrum/frequency" as listed in the market access column of many Members' schedules achieve that objective.

Spectrum/frequency management is not, *per se*, a measure which needs to be listed under Article XVI. Furthermore under the GATS each Member has the right to exercise spectrum/frequency management, which may affect the number of service suppliers, provided that this is done in accordance with Article VI and other relevant provisions of the GATS. This includes the ability to allocate frequency bands taking into account existing and future needs. Also, Members which have made additional commitment in line with the Reference Paper on regulatory principles are bound by its paragraph 6.

Therefore, words such as "subject to availability of spectrum/frequency" are unnecessary and should be deleted from Members' schedules.

Appendix 2

Distribution Services

Distribution trade services are comprised of four main sub-sectors:

- commission agents services;
- wholesaling;
- retailing; and
- franchising.

The principal services rendered in each subsector can be characterized as reselling merchandise, accompanied by a variety of related subordinated services, including inventory management; assembly, sorting and grading of bulk lots; breaking bulk lots and redistributing into smaller lots; delivery services; refrigeration, storage, warehousing and garage services; sales promotion, marketing and advertising, installation and after sales services including maintenance and repair and training services. Distribution services are generally covered by CPC 61, 62, 63 and 8929.

Commission Agents' Services consist of sales on a fee or contract basis by an agent, broker or auctioneer or other wholesalers of goods/merchandise and related subordinated services.

Wholesaling consist of the sale of goods/merchandise to retailers to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Retailing services consist of the sale of goods/merchandise for personal or household consumption either from a fixed location (e.g., store, kiosk, etc.) or away from a fixed location and related subordinated services.

Franchising services consist of the sale of the use of a product, trade name or particular business format system in exchange for fees or royalties. Product and trade name franchising involves the use of a trade name in exchange for fees or royalties and may include an obligation for exclusive sale of trade name products. Business format franchising involves the use of an entire business concept in exchange for fees and royalties, and may include the use of a trade name, business plan, and training materials and related subordinated services.

Appendix 3

Insurance: Definition of "Master Policy"

Master policy is the policy that provides blanket coverage for the same legal person's property and liabilities located in different places. Master policy may only be issued by the business department of an insurer's head office or that of its authorized province-level branch offices. Other branches are not allowed to issue master policy.

Master policy business with the state key construction projects as its subject-matter insured. If investors on the state key construction projects (i.e., projects that are so listed and annually announced by the State Development and Planning Commission) meet either of the following requirements, they may purchase master policy from insurers that are located in the same place as the investors' legal persons do.

The investment on the subject-matter insured is all from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the investor accounts for over 15 per cent of the total investment.

The investment is partially from abroad, and partially from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the Chinese investor accounts for over 15 per cent for the total domestic investment.

For those projects that draw investment all from abroad, every insurer may provide coverage in the form of master policies.

Master policy covering different subjects-matter insured of the same legal person. For those subjects-matter insured located in different places and owned by the same legal person (excluding financial, railway, and post and telecommunications industries and enterprises), master policy may be issued on the basis of either of the following conditions.

For the sake of payment of premium tax, insurance companies incorporated where the legal person or accounting unit of the insurance applicant is located are allowed to issue master policy.

If over 50 per cent of insurance amount of the subject-matter insured is from a larger or medium sized city, then insurers in that city are allowed to issue master policy, no matter whether the insurance applicant's legal person or accounting unit is located in the city.

Motor insurance, credit insurance, employer liabilities insurance, statutory insurance, and other insurance business excluded by the CIRC can not be underwritten or co-insured by insurers located other than where the subject-insured are located, or covered under a master policy.

NOTES TO THE SCHEDULE

1. Specific commitments in this schedule are prepared in accordance with the WTO Secretariat paper entitled "Scheduling of Initial Commitments on Trade in Services: Explanatory Note" (MTN.GNS/W/164). The classification of sectors in this schedule is based on the 1991 provisional Central Product Classification (CPC) of the United Nations Statistical Office, while the ordering reflects the classification system used by the Secretariat in MTN.GNS/W/120. In the context of CPC listings in the schedule, the use of ** against individual CPC listings indicates that the service specified constitutes only part of the total range of activities covered by the CPC concordance.

Overseas Investment

2. An "overseas person" is defined as an individual not normally resident in New Zealand; a company not incorporated in New Zealand; a New Zealand-incorporated company in which 25 per cent or more of any class of shares or 25 per cent or more of the voting power is held by overseas persons; or a nominee of the overseas person, whether or not the nominee is himself/herself an overseas person.

Maritime Transport Services

3. Cabotage: for purposes of this schedule only, cabotage is defined as the transportation of passengers or goods between a port located in New Zealand and another port located in New Zealand and traffic originating and terminating in the same port located in New Zealand.

4. Maritime Freight Forwarding Services: the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.

REFERENCE PAPER

Scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services⁹.

Definitions

Users mean service consumers and service suppliers.

Essential facilities¹⁰ mean facilities of a public telecommunications transport network or service that

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and

(b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

- (a) control over essential facilities; or
- (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;

⁹ This applies only to suppliers of basic telecommunications services and not to end-users of such services.

¹⁰ This definition of "essential facilities" will be applied only to the extent consistent with New Zealand's competition policy regime, which regulates the activities of "dominant suppliers".

- and
- (b) using information obtained from competitors with anti-competitive results;
 - (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided:

- (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;
- (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
- (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

- (a) at any time or
- (b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive *per se*, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available:

- (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
- (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures¹¹ for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands

¹¹ Such procedures may be administered by means of a variety of mechanisms, including laws and regulations, public tendering process and consultative processes.

will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

ANNEX 11: Commitments on Temporary Employment Entry by Natural Persons

New Zealand's Commitments made pursuant to Article 130

New Zealand's commitments in respect of temporary employment entry for natural persons in these specific occupations, including those relating to temporary employment entry for skilled workers to work in specified skilled occupations, do not affect the opportunity for Chinese natural persons to apply to enter New Zealand to take up temporary employment under New Zealand's immigration policy outside the arrangements under the Free Trade Agreement between the Government of New Zealand and the Government of the People's Republic of China ("the FTA arrangement"). If it is possible to take up temporary employment entry under New Zealand immigration policy outside the FTA arrangement, the maximum numbers in these commitments will not affect that possibility.

Applications by Chinese natural persons for temporary employment entry in these specific occupations will be processed in a transparent manner consistent with the provisions of Article 128.¹
